

ARAMID / KEVLAR CORD BELTS STANDARDS:

Series: Available in entire range of PIX wrapped & raw edge belts.

Features: PIX Aramid cord belts are suitable for highly specialised applications under stringent operations, such as drives where take-up allowance is not provided and there are restrictions on the drive width.

- Aramid is an organic polyaramide fibre that is manufactured using complex chemical processes.
- Aramid is used as tension member because of its high tensile strength.
