

PIX - ARMOUR®

STANDARDS:

Application:

Suited for hydraulic circuits in severe abrasion conditions (e. g. bunched up hoses, extraneous bodies/particles, sliding over rough surface and ground, contact with sharp edges etc), marine applications, underground and open pit mining.

Special Features:

Available in 1SN/2SN, 1SC/2SC Braided and 4SP/4SH/R12/R13 and R15 Spiral constructions. Special polymeric cover gives outstanding abrasion resistance. It is 300 times more abrasion resistant than std rubber cover. Excellent weather and ozone resistant.

Note: Unlisted hose types available on request.
